**Millipore Water Purification**

> **DO NOT USE EQUIPMENT WITHOUT PROPER TRAINING**

> **Procedure to dispense water:**

- Briefly (1-2 seconds) purge standing water within tubing by pressing blue button on dispensing arm.
- Set desired volume by adjusting +/- buttons at bottom of pedestal.
  - Position carboy container under dispensing arm.
  - Press graduated cylinder icon at bottom of pedestal. Water will automatically stop when set volume has been dispensed.

> **PLEASE**

- **DO NOT** Adjust anything on the purification system (located on shelf).
- **DO NOT** Turn off water supply.
- **DO NOT** Turn off power supply.

> **Report all problems and request for training and use to Dr. Greg Connell**
